DETAILED ACTION

Drawings

Parts of Figure 1a, 1b, 1c, element (100) in the Drawings of August 6, 2004 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. The objection to the drawings will not be held in abeyance.

Specification

The substitute specification filed September 20, 2005 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows in order to comply with MPEP 608.01 (v):

In the substitute specification of September 20, 2005:

Page 8, lines 13 and 19, “ “coke bottle” effect” has been changed to read
---“COKE® bottle” effect--- .

In the claim 35, line 3: “ “coke bottle” effect” has been changed to read
---“COKE® bottle” effect--- .

Allowable Subject Matter

Claims 25-35 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 25 is considered allowable, since the prior art does not teach or suggest a
an eyeglass lens for medium-high to very high nearsightedness having a lens body with
an optical center having a central asymmetric optical spherical correction area with a
constant power surrounding the optical center and a peripheral asymmetric aspheric
optical correction area with varying decreasing power surrounding the central area, the
lens body having both optical correction areas asymmetric to the optical center that
coincides with a geometrical center of the lens body and varies in width according to the
power and diameter of the lens. Claims 26-35 are considered allowable, since they
depend upon independent claim 25.

Any comments considered necessary by applicant must be submitted no later
than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott J. Sugarman whose telephone number is (571)272-2340.
